FINANCIAL AND COMMERCIAL. SATURDAY, APRIL 9-6 P. M. The week closed upon a dull state of affairs in

the markets save the gold market.

GOLD 113%. The advance in the foreign exchanges which was strong market at the opening of the Gold Room, and the day progressed a prominent broker, who was said to be buying for a new clique movement, several milions in lots ranging thousand to half a million of dollars. Under this stimulus the price advanced to 113%, but declined to 113% at the close, when the broker referred to left the market. The transactions after his departure were not of great moment, wever. The dealers in gold have been fur ibmitted to them during to day. The dulfear to take steps either way, and a desire to postne operations until more of the movement is seen ext week. The foreign exchange market was ctive, even after the steamer, on the basis of 100 for prime bankers' sixty day sterling and 109% These were the lowest quotations, other bankers refusing to draw at all, except at certain to guarantee them against any sudden

16 Holders of gold paid from four to five and a hair per cent to have their balances carried. The opera tions of the Gold Exchange Bank were as follows:-

MONEY STEADY. The money market was easy at five to six per cent. The offerings at the latter figure on stocks were more than the demand. The government dealers were abundantly supplied at the lower rate. Commercial paper was without new feature and in limited supply at seven to eight per cent for prime double name acceptances.

THE BANK STATEMENT.

The weekly statement of the associated banks is again uninvorable. Despite the fact that the domestic exchanges continue to favor this city, and that the money markets of Boston, Philadelphia, Chicago. New Orleans, and all the large cities are working easily, there is a loss in legal tenders of about two and a half millions, and a falling off in deposits of over four and a half millions. Speculative manipulation is therefore very evident. The banks lose a million in specie, while the surplus over the legal reserve is reduced about \$2,400,000. The las two statements are as follows: Loans.....\$271.756,871

 Specie
 20,887,183

 Circulation
 35,676,564

 Deposits
 206,412,43

 Legal tenders

 The changes are in detail as follows:-Decrease in deposits. 4.659,996
Decrease in legal tenders. 2.441,160

\$272,171,388

The stock market was extremely dull, but prices advanged in sympathy with gold. There was a tendency to a reaction after the bank statement, but, rold suddenly taking a sharp upward movement, closed steady at the improved rates suspected that the gold movement is the work of the stock chaues, who began to feel the pulse of the market to-day ratory to a campaign in stocks. If they disover a sufficient short interest they will run prices up sharply, and by holding gold will force the shorts to cover. If the short interest is trifling they will use the advance in gold to sell stocks and unload public.
